Molecular Biology and Interdisciplinary Life Sciences Seminars

Gerald Thomas Room 190

Zoom option: https://nmsu.zoom.us/j/82120053264

Student Evaluation: https://www.surveymonkey.com/r/MBILFA26

September 16: **Dr. Tim Wright and Alfredo Montoya** : *The Biomedical Research Facility*

September 23: **Dr. Simeon Schum**: *Research Core Chemical Analyses and Instrumentation Lab*

September 30: **Dr. John Nolan**: *Research Core: Building a Cytometry Core Facility!*

October 7: MBIL Students: *Three-minute lightening talks!*

October 14: No Seminar

October 21: Sara Ruiz, *Revealing the forces driving the evolution of sotol*

(*Dasylirion*: Asparagaceae)

October 28: Dr. Samyi Belteton: *Research Core: Microscopy Facility, new equipment and training!*

November 4: **Davor Beltran**: *Can we switch a breast tumor's alarm back on?*—check title

November 11: Priscila Fourzan: *Developing novel reporters to explore cellular mechanics in living cells*

November 18: Alicia Marmolejo: *What genomic features might contribute to invasion success?*

December 2:

a. **Sushila Bhusal**: *Investigating IGFBP-3–Associated Changes in Syndecan-2 in Breast Cancer Cells*
b. **Jannatul Mahmuda** : *Dietary modulation of chemotherapeutic toxicity in a Drosophila model*
